PROFESSIONAL SUMMARY

Software Engineer with 3+ years building production backend systems, REST APIs, and AI-powered automation for enterprise clients. Built multi-agent orchestration platforms, RAG retrieval pipelines, and developer-facing tooling for Citi Bank using Python, FastAPI, LangChain, and AWS. Maintained 99.8% system availability across 13 enterprise applications with zero-downtime deployments. Oracle Certified Java SE 11 Developer.

AREAS OF EXPERTISE

Python Development • REST API Engineering • LLM & Multi-Agent Systems • RAG Pipelines • CI/CD Integration
Microservices Architecture • Data Pipeline Engineering • Test Automation • System Design • DevOps
Full-Stack Development • Cloud Infrastructure (AWS) • Database Management • Agile Delivery • Open-Source AI

PROFESSIONAL EXPERIENCE

LTIMindtree 2021 - 2024

Software Engineer | Client: Citi Bank | Bengaluru, India

- Designed and deployed multi-agent orchestration systems using LangChain and LangGraph, automating cross-team workflows across JIRA, ServiceNow, and Oracle and reducing manual processing time by 40%
- Built FastAPI REST APIs with OpenAPI specs and versioning, consumed by 3+ engineering teams for seamless AI integration across heterogeneous backend systems and internal tooling
- Engineered a hybrid log classification pipeline combining sentence transformers, logistic regression, and LLM fallback that achieved 99.8% accuracy and eliminated hours of manual incident triage
- Built Python ETL pipelines processing large-scale data across Oracle, ServiceNow, and JIRA with automated validation, transformation, routing logic, and zero-downtime production deployments
- Integrated platform components into Jenkins CI/CD pipelines with pytest test gates and SonarQube static analysis, catching 90% of critical defects before they reached production environments
- Orchestrated Oracle ERP/EPM/AFCS releases across 13 applications using blue-green deployment strategy, maintaining 99.8% system availability for mission-critical banking infrastructure
- Built reusable Python libraries with documented APIs enabling downstream engineering teams to integrate AI-powered workflows into their services without needing ML infrastructure expertise
- Engineered real-time Power BI dashboards tracking deployment metrics, release health, and KPI trends, improving release planning and efficiency by 30% across enterprise teams

Omdena 2025

Data & AI Engineer (Open Source Contributor)

- Built backend APIs and ML pipelines for CropLogic, an agricultural intelligence platform, owning the full data flow from ingestion through API serving with comprehensive pytest coverage
- Built an LLM-powered analysis agent assessing COVID-19 lockdown impact on Italian crime rates, delivering interactive dashboards with geographic trend visualization and near-term predictions

PROJECTS

Medical Chatbot | Python, LangChain, Pinecone, FastAPI, Docker, AWS

End-to-end RAG pipeline with semantic retrieval, FastAPI serving endpoints, and Dockerized AWS deployment via GitHub Actions CI/CD

Log Classification System | Python, FastAPI, Sentence Transformers, pytest

Hybrid ML classifier with FastAPI REST API for CSV log ingestion, combining regex, embeddings, and LLM fallback — 99.8% precision with full TDD coverage

Knowledge Graph Generator | Ollama, LangChain, Streamlit

Local tool that parses freeform text into structured entity-relationship graphs via LLMGraphTransformer, with interactive Streamlit-based exploration and filtering

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, SQL, PL/SQL, JavaScript, Shell Script

AI & ML: LangChain, LangGraph, RAG, Ollama, HuggingFace, Pinecone, Sentence Transformers, Knowledge Graphs

Backend & APIs: FastAPI, Flask, REST APIs, OpenAPI, Microservices, HTTP/HTTPS

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Jenkins, GitHub Actions, CI/CD, Git, Linux

Databases: Oracle, MySQL, MongoDB, Elasticsearch, Pinecone

Testing: pytest, unittest, TDD, Selenium, Tricentis Tosca, SonarQube

EDUCATION & CERTIFICATIONS

BIT Bangalore | B.E., Electronics & Communication Engineering | GPA: 8.8/10 2021

Oracle Certified Professional - Java SE 11 Developer 2023
